

5 Key PVA Facts

1. **Makes Multi-Port 10/100/1000 PHY Testing Available and Productive to Anyone, Anywhere, Anytime.**
 - *Fully Automated, Plug 'n Play Analysis*
 - *No Scopes, No Fixtures, No Probes, No Generators, No Test Modes, No Cable Spools*
2. **Exposes and Identifies 10/100/1000 Interface Defects that are Hidden To or Undiagnosed By Ordinary Packet Flow Testing.**
 - *Popular Industry Solution for Mission Critical Interface Testing*
3. **Provides Transmitter, Receiver, Interface, and Auto-Neg Test Coverage on Up To 24 Ports with Single Button Press.**
4. **Resolves Marginal Ethernet Ports Effortlessly – Efficient Pre-Screen for Comprehensive Ethernet Compliance Testing.**
5. **Tests Anything LAN: Active 10/100/1000BaseT Interfaces, Stand-Alone Ports, PSE DC Unbalance Tolerance, Multi-Port Switches, Cables and Link Components.**

Verification, Simplified.
